WORK EXPERIENCES

Senior Software Engineer at Headout

May 2023 - Present, Bangalore, India - **1+ years**

- Tech stack: **TypeScript, React Native, NextJS.**
- Built an **LLM-powered Interface** to answer experience-related queries, seamlessly improving **conversion rates**.
- Developed an **App Sync Engine** to store & sync ticket data for offline/low-network cases, reducing initial load time and enhancing **homepage recommendation accuracy**.
- Created an **internal app debug tool**, increasing developer efficiency and reducing QA feature testing time.

Software Engineer at Headout

May 2023 - Apr 2025, Bangalore, India - **2 years**

- Tech stack: **TypeScript, React Native, NextJS & AWS.**
- Implemented seamless Web-to-App transition → **61% increase in app adoption** & **33% boost in retention**.
- Introduced personalized user homepages → **20% uplift in CVR** & **60% performance improvement**.
- Built a reusable **A/B testing framework** enabling scalable experimentation across apps & backend systems.
- Created a push notification nudging system, **raising opt-in rates from 18% → 38%.**

INTERNSHIP EXPERIENCES

Software Engineer Intern at Headout

Jan 2022 - April 2023, Bangalore, India *(Remote)*

- Tech stack **NextJS, React, Prismic & Spring Boot (Kotlin)**
- Migrated mailing & ticketing systems from JSP to Next.js → **60% boost in developer productivity**.
- Automatic payment proof receipts to the customer's email.
- Certificate

Software Engineer Intern at American Express

June 2022 - August 2022, Gurugram, India *(Remote)*

- Tech stack **Spring Boot, Java, and Maven.**
- Developed **call automation API** for IVR, improving contextual customer experience.
- Certificate

Founding Engineer at Moyyn

Nov 2020 - Jan 2022, Berlin, Germany *(Remote)*

- Tech stack **ReactJS, Node, Python, AWS and Digital Ocean.**
- Built a **candidate sourcing platform** across multiple channels with GDPR compliance.
- Designed & implemented a **recruitment automation system**, improving sourcing-to-hire pipeline efficiency by **70%**.

EDUCATION

B.Tech in Computer Science & Engineering With Specialization in Cyber Security & Forensics

Manav Rachna International Institute of Research & Studies
2019 - 2023.

SKILLS

JavaScript, TypeScript, React, NextJS, React Native, AWS

NodeJS, Firebase, Python, Spring Boot.

PROJECTS

AB Testing NPM Package

- Made using **TypeScript, Node, and NPM.**
- A library that can be used with NodeJS backends as well as all frameworks like React, Remix, etc. to power AB Testing.
- GitHub, NPM Registry

DropCount - Reward-Based Water Efficiency Increaser

- Made using **Flutter, C++, Firebase, and NodeMCU, IOT.**
- A platform where you can track and monitor your water usage and get rewarded for saving water.
- GitHub, Demo Video

Home Automation with Alexa support

- Made using **C++, NodeMCU, IOT.**
- Plug and play voice-controlled (via Alexa) and manual fallback switches to automate your room/home.
- GitHub, Demo Video

ACHIEVEMENTS & COMMUNITIES

Winner of Hackathon AMEX CodeStreet'21

Certificate, Shortlisted Teams

Google Developer Student Clubs Lead 2021-22

Website, Certificate, Youtube Session

The Frontend Club Community Initiative

Website, Meetups

CERTIFICATES

Cybersecurity Essentials
